Tests\nSummary:\nAs a billing coordinator, I want the system to automatically verify a
patient's insurance coverage and pre-authorize radiology tests before scheduling, so that delays
and manual verification errors can be reduced.\nDescription:\nBefore scheduling any CT, MRI, or
ultrasound procedure, the system should trigger an API call to the insurance provider to check if
the procedure is covered under the patient's plan. If authorization is required, it should
return the pre-authorization status automatically and store the approval ID for the system."

```
Data** | Use patient ID from the scenario being validated. |\n| **Test Steps** | 1.
After the scenario finishes, query 'audit_log' where 'patient_id = <ID>' and
'event_type = 'INSURANCE_CHECK'. |\n| **Expected Results** | * Log contains fields:
'timestamp', 'user_id', 'patient_id', 'procedure_cpt', 'response_status' (e.g.,
'ELIGIBLE', 'PRE_AUTH_REQUIRED', 'NOT_COVERED', 'ERROR').<br>* For successful pre-auth,
an additional entry 'PRE_AUTH_SUCCESS' with 'auth_id'. |\n| **Priority** | P2 |\n|
**Automation** | DB verification after each API-driven test case. |\n| **Remarks** |
Important for compliance (HIPAA) and troubleshooting. |\n|---\n| TC-HC-311-007 -
Verify that duplicate pre-authorization requests are not created for the same test\n|
Attribute | Detail |\n|-----|-----|\n| **Test Case ID** | TC-HC-311-007 |\n|
**Title** | Ensure system does **not** send a second pre-auth request if one already
exists for the same patient-procedure |\n| ***,
'reasoning': "We need to produce test cases based on user story. As senior QA analyst, need
high-quality, review-ready test cases. Should include test case ID, title,
preconditions, test steps, expected results, priority, related requirement/AC, test
data, maybe postconditions, comments. Also cover positive, negative, edge cases,
performance, security maybe. Also note API mock, error handling, timeout. Provide

Skyscrapers gleamed like copper-plated books, their facades pulsing with layers of code that rewrote themselves in the glow of midnight. In the cramped fourth-floor loft of an aging brick building, Mara stared at a wall of glass, her fingers curled around a chipped mug of cold coffee. \n\nShe had spent the last two years teaching herself the language of machines-Python, tensors, attention heads-until the syntax felt as natural as breathing. Yet, in a city
```
